

## **Equipment Specialist – FAA Part 145 Repair Station**

**Safety Sensitive:** Ability to pass background check and Drug & Alcohol screening.

**Reports to:** Technical Director & Lead Tech

**Duty Location:** Nashville, TN, 50% Travel Required

**Office Hours:** Monday – Friday, 8:00 am – 5:00 pm

Do you love trouble-shooting mechanical systems? We have an exciting opportunity for you!

At customer locations this position will assist in the inspection, repair and maintenance of aircraft fuel systems using company proprietary rapid repair equipment. There is the possibility of rotating shift and providing coverage on weekends. This position is ideal for those who would like to travel, but wish to maintain a grounded home life. From our Nashville home-base this position will be responsible for calibration and maintenance of our equipment.

### **Primary Duties and Responsibilities:**

Locate fuel leaks using Sunaero equipment.

Perform user and administrative level maintenance on assigned support equipment, including inspection, repair, and modification.

Assist Lead Tech to evaluate and repair aircraft fuel leaks.

Troubleshoot fuel system malfunctions, determining the extent and type of repair.

### **Secondary Duties and Responsibilities:**

Assist in Production of equipment.

Supplier communication.

Manage stock.

Manage Aerowing workshop (safety, organization, cleanliness).

Perform additional shop duties as assigned.

### **Qualifications:**

High school diploma or GED.

Use proper time management to ensure aircraft parts will be returned to service according to schedule.

Proficiency with basic hand and power tools.

Ability to interpret technical drawings and specifications.

## JOB DESCRIPTION

General mechanical troubleshooting experience.

Understands, reads and writes English.

Ability to work in a tight team environment with no fear of new challenges.
